

# BRACELET SIZE GUIDE

## EMBODY YOUR SOVEREIGNTY® JEWELRY COLLECTION

Please use this guide to assist you for choosing the best bangle or cuff size for your wrist.

Print this guide on US Letter size paper (8.5 x 11") scaled to 100%.

NOTE: After printing, double-check with a ruler that the rectangles to the right are 9" long to ensure your size guide has been printed to scale.

### HOW TO USE THIS SIZE GUIDE

1. Cut out the rectangle for sizing your desired bracelet.
2. Wrap the rectangle around your wrist and note where the top line meets with the sizing option lines.

**FOR CUFFS :** Wherever the lines match with the paper comfortably fitting around your wrist is the correct size. If it seems too loose, fold the paper to the next smaller line. If this fits well, this is your size.

**FOR BANGLES :** Tape the ends of the paper together at a size option line to form a circle. If your hand fits comfortably through the circle, this is your size. If not, move the tape to the next sizing option line until you are able to fit your hand through the taped circle.
